41-C.		<b>Favor</b>	Aimee G Ellicott	As a nation historically responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony is the U.S. is contributing to this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

As the product of an immigrant home, I could never turn my back on anyone seeking to come to the states. That being said, this is a crisis and it seems cruel for anyone to say no to assisting people fleeing natural disasters and the murder of a president. Haitians coming to the states are not disposable, they are human beings seeking relief that we could more than provide.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of compensation for "property loss" in 1825, the U.S. stood by and claimed that the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti to take out loans \*on its own money\* to increase the wealth of our private banks. In 2015, France finally waived Haiti's debt from 1825 (which amounted to \$25 billion today). The U.S. and France have been active culprits in destabilizing Haiti and creating the conditions of economic crisis and political unrest that have led to so many Haitian refugees seeking asylum. Now, when Haitians show up at our border, they are met with whips, violence, and barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony in the U.S. causing this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

Immigrants make up 35% of L.A. County's population. As a County whose success is dependent on immigrant communities, we cannot stand idly by as these numbers grow. As we see an influx of Haitians, we must dedicate the funds and resources necessary to ensure their safety, comfort, and transition into Los Angeles by ensuring access to wraparound support services.

This motion would send a letter to the U.S. Secretary of State informing him that L.A. County stands ready to work with the federal government in supporting Haitian immigrants. This is an opportunity for the County to lobby for humane treatment at the border and the expansion of federal political asylum for Haitian refugees.

The County must take the steps outlined in this motion to ensure the safety of incoming Haitians. A plan to provide wraparound services to Haitians should include funding for community-based organizations and immigrant legal aid groups such as Immigrant Defenders, TransLatina Coalition, and the newly

Now, when Haitians show up at our border, they are met with whips, violence, and barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony in the U.S. causing this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

Immigrants make up 35% of L.A. County's population. As a County whose success is dependent on immigrant communities, you cannot stand idly by as these numbers grow. As we see an influx of Haitians, we must dedicate the funds and resources necessary to ensure their safety, comfort, and transition into Los Angeles by ensuring access to wraparound support services.

This motion would send a letter to the U.S. Secretary of State informing him that L.A. County stands ready to work with the federal government in supporting Haitian immigrants. This is an opportunity for the County to lobby for humane treatment at the border and the expansion of federal political asylum for Haitian refugees.

The County must take the steps outlined in this motion to ensure the safety of incoming Haitians. A plan to provide wraparound services to Haitians should include funding for community-based organizations and immigrant legal aid groups such as Immigrant Defenders, TransLatina Coalition, and the newly formed L.A. Immigrant Legal Defense Fund to provide services to incoming Haitians.

Charles Jensen

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

I believe L.A. County must step in and fund services for Haitian immigrants coming over to the U.S. because we are a national leader in incorporating diverse communities into our regional culture. When we have the resources to help some of the world's most marginalized people, we should step in to

we see them facing now. We must put our money where our mouth is and fund black lives. What occurred at the border is just another horrific and brutal reminder of what this Colonial Project does to black people. Not supporting the Haitians coming in now is racism. Plain and simple. Further we are standing on STOLEN LAND, built up with STOLEN LABOR. We offered Armenian families in the 80s 40-50K a person and those families now own much of Los Angeles county, and yet we want to debate reparations for black and indigenous folks, and funding black lives, black schools, & black communities. Haitians ARE OUR RELATIVES! We support full citizenship for them and demand that immigrants never have to deal with incarceration because they decide to immigrate to the US.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. groups such as Immigrant Defenders, TransLatina Coalition, and the newly formed L.A. Immigrant Legal Defense Fund to provide services to incoming Haitians.

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of compensation for "property loss" in 1825, the U.S. stood by and claimed that the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti to take out loans "on its own money" to increase the wealth of our private banks. In 2015, France finally waived Haiti's debt from 1825 (which amounted to \$25 billion today). The U.S. and France have been active culprits in destabilizing Haiti and creating the conditions of economic crisis and political unrest that have led to so many Haitian refugees seeking asylum. Now, when Haitians show up at our border, they are met with whips, violence, and barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony in the U.S. causing this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

Immigrants make up 35% of L.A. County's population. As a County whose success is dependent on immigrant communities, we cannot stand idly by as these numbers grow. As we see an influx of Haitians, we must dedicate the funds and resources necessary to ensure their safety, comfort, and transition into Los Angeles by ensuring access to wraparound support services.

This motion would send a letter to the U.S. Secretary of State informing him that L.A. County stands ready to work with the federal government in supporting Haitian immigrants. This is an opportunity for the County to lobby for humane treatment at the border and the expansion of federal political asylum for Haitian refugees.

The County must take the steps outlined in this motion to ensure the safety of incoming Haitians. A plan to provide wraparound services to Haitians should include funding for community-based organizations and immigrant legal aid groups such as Immigrant Defenders, TransLatina Coalition, and the newly formed L.A. Immigrant Legal Defense Fund to provide services to incoming Haitians.

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation. I believe L.A. County must step in and fund services for Haitian immigrants because it's the right thing to do given U.S. involvement in destabilizing Haiti from the early days.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of compensation for "property loss" in 1825, the U.S. stood by and claimed that the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti to take out loans \*on its own money\* to increase the wealth of our private banks. In 2015, France finally waived Haiti's debt from 1825 (which amounted to \$25 billion today). The U.S. and France have been active culprits in destabilizing Haiti and creating the conditions of economic crisis and political unrest that have led to so many Haitian refugees seeking asylum. Now, when Haitians show up at our border, they are met with whips, violence, and barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti to take out loans \*on its own money\* to increase the wealth of our private banks. In 2015, France finally waived Haiti's debt from 1825 (which amounted to \$25 billion today). The U.S. and France have been active culprits in destabilizing Haiti and creating the conditions of economic crisis and political unrest that have led to so many Haitian refugees seeking asylum. Now, when Haitians show up at our border, they are met with whips, violence, and barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony in the U.S. causing this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

Immigrants make up 35% of L.A. County's population. As a County whose success is dependent on immigrant communities, we cannot stand idly by as these numbers grow. As we see an influx of Haitians, we must dedicate the funds and resources necessary to ensure their safety, comfort, and transition into Los Angeles by ensuring access to wraparound support services.

This motion would send a letter to the U.S. Secretary of State informing him that L.A. County stands ready to work with the federal government in supporting Haitian immigrants. This is an opportunity for the County to lobby for humane treatment at the border and the expansion of federal political asylum for Haitian refugees.

The County must take the steps outlined in this motion to ensure the safety of incoming Haitians. A plan to provide wraparound services to Haitians should include funding for community-based organizations and immigrant legal aid groups such as Immigrant Defenders, TransLatina Coalition, and the newly formed L.A. Immigrant Legal Defense Fund to provide services to incoming Haitians.

Laura Adery

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of compensation for "property loss" in 1825, the U.S. stood by and claimed that the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti

Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

I believe L.A. County must step in and fund services for Haitian immigrants coming over to the U.S. because we need to be open and welcoming. Why? We need to welcome these Haitians, especially now that I know that US involvement in Haiti has been imperialistic, and downright MEAN and CRUEL and entirely meddling.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of

barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony in the U.S. causing this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

Immigrants make up 35% of L.A. County's population. As a County whose success is dependent on immigrant communities, we cannot stand idly by as these numbers grow. As we see an influx of Haitians, we must dedicate the funds and resources necessary to ensure their safety, comfort, and transition into Los Angeles by ensuring access to wraparound support services.

This motion would send a letter to the U.S. Secretary of State informing him that L.A. County stands ready to work with the federal government in supporting Haitian immigrants. This is an opportunity for the County to lobby for humane treatment at the border and the expansion of federal political asylum for Haitian refugees.

The County must take the steps outlined in this motion to ensure the safety of incoming Haitians. A plan to provide wraparound services to Haitians should include funding for community-based organizations and immigrant legal aid groups such as Immigrant Defenders, TransLatina Coalition, and the newly formed L.A. Immigrant Legal Defense Fund to provide services to incoming Haitians.

Stephen Brantley

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of compensation for "property loss" in 1825, the U.S. stood by and claimed that the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti to take out loans \*on its own money\* to increase the wealth of our private banks. In 2015, France finally waived Haiti's debt from 1825 (which amounted to \$25 billion today). The U.S. and France have been active culprits in destabilizing Haiti and creating the conditions of economic crisis and political unrest that have led to so many Haitian refugees seeking asylum. barbarism.

As a nation responsible for creating the situation in Haiti, we have a responsibility to extend help and refuge to Haitians trying to escape it. The irony in the U.S. causing this crisis but refusing to deal with the consequences cannot be overstated. Where the federal government will not step up, L.A. County can.

Immigrants make up 35% of L.A. County's population. As a County whose success is dependent on immigrant communities, we cannot stand idly by as these numbers grow. As we see an influx of Haitians, we must dedicate the funds and resources necessary to ensure their safety, comfort, and transition into Los Angeles by ensuring access to wraparound support services.

This motion would send a letter to the U.S. Secretary of State informing him that L.A. County stands ready to work with the federal government in supporting Haitian immigrants. This is an opportunity for the County to lobby for humane treatment at the border and the expansion of federal political asylum for Haitian refugees.

The County must take the steps outlined in this motion to ensure the safety of incoming Haitians. A plan to provide wraparound services to Haitians should include funding for community-based organizations and immigrant legal aid groups such as Immigrant Defenders, TransLatina Coalition, and the newly formed L.A. Immigrant Legal Defense Fund to provide services to incoming Haitians.

Susan Anderson

I deeply appreciate Supervisor Mitchell for bringing forward this critical motion. Los Angeles County absolutely needs to do everything in their power to support Haitian immigrants and their families who come to the County, especially given the centuries of the United States' unwelcome involvement in Haiti, which has destabilized the region long before earthquakes worsened the situation.

I believe L.A. County must step in and fund services for Haitian immigrants coming over to the U.S. because they are seeking asylum. This is their international right. L A County must respond and give asylum.

Since the 1800s, when Haiti became the site of the first and only successful slave revolt in history, the U.S. has been meddling in Haitian affairs, beginning with Thomas Jefferson's trade embargo on Haiti, cutting off its residents' source of income. When France demanded obscene amounts of compensation for "property loss" in 1825, the U.S. stood by and claimed that the Monroe Doctrine did not apply to Haiti, meaning the U.S. could not protect it. In 1914, the U.S. took \$500k from Haiti for "safekeeping," then forced Haiti to take out loans \*on its own money\* to increase the wealth of our private banks. In 2015, France finally waived Haiti's debt from 1825 (which amounted to \$25 billion today). The U.S. and France have been active culprits in
